DIE WELT ARTIST EDITION

PRINT & DIGITAL

Since 2010, the most renowned contemporary artists have been designing DIE WELT as a unique art object - impressively staged both in print and digitally.

This year's artist **KAWS** combines his iconic art with high-quality journalism in the 16th WELT artist edition, making this edition a coveted collector's item.

Become part of this work of art!

THE ARTIST

KAWS

“We are proud to have KAWS, an absolute superstar, for the upcoming artist edition of the world. His “Companion” figures have conquered the living rooms of his fans as designer toys, while his paintings have fetched prices of up to 14.8 million dollars at auction. No wonder he is now by far the most popular visual artist on Instagram with 4.4 million followers. His artist edition will be released on June 13, 2025.

What exactly KAWS is planning remains his secret for now. The only thing that is certain is that he will design every page - and that the newspaper will become an international collector's item.”

Cornelius Tittel

Creative Director WELT and Editor-in-Chief Blau
